

Hart Enterprises, Inc.

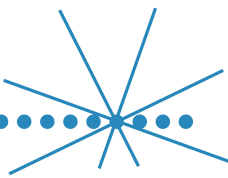

In business for over 40 years, Hart Enterprises, Inc. is the leading OEM supplier of special application needles and custom medical devices in the healthcare industry today.

Our continued growth comes not only from our employee's dedication to quality before anything else but also from our customers who demand that quality comes first.

Hart looks forward to discussing your current project, no matter the size. Hart has standard parts which have 510k clearance as well as the ability to customize the idea you are looking to turn into reality.

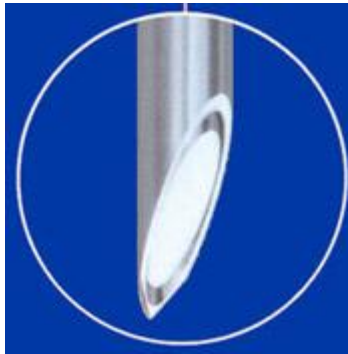

All projects have to start somewhere and we hope you start yours with Hart Enterprises.
